Terms and Conditions

Inspections: Customer agrees to cooperate with Rocky Mountain Power and its consultants to conduct inspections at the customer's site. Rocky Mountain Power reserves the right to inspect qualifying equipment, which may include a telephone survey, site visit, and/or the installation of temporary monitoring equipment at any time up to 36 months after installation for quality control or program performance evaluations. Customer agrees to provide any reasonable documentation to allow Rocky Mountain Power to determine electric savings and actual costs incurred.

Incentive limitations & limitation of damages:

Customers can only receive one incentive per lamp.

Customers are responsible for ensuring that equipment installed for this program meets all applicable codes, standards, environmental regulations and regulatory requirements. Customer is responsible for ensuring all LEDs purchased under the LED instant incentive are installed at the eligible customer facility noted on this application. Rocky Mountain Power does not warrant the performance of qualifying installed equipment and does not warrant that the qualifying installed equipment will deliver any specified amount of energy or cost savings. Customer shall independently evaluate any advice or direction given by Rocky Mountain Power or its consultants related to the estimates of savings for electricity or the cost, selection or installation of qualifying equipment. In no event will Rocky Mountain Power or its consultants be liable for the failure of the customer to achieve its expected amount of energy savings, for any personal injury or harm to customer's facilities of any kind, or for any incidental or consequential damages of any kind including hazardous material identification in connection with installation or inspection of qualifying equipment. Rocky Mountain Power is not responsible if a third party provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by third parties regarding incentive qualifications.

Transfer of environmental attributes: Customer hereby transfers to Rocky Mountain Power all "Environmental Attributes" attributable to the installation of the qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by the company's generating facilities, through reduced generation of energy or other savings or offsets on account of the qualifying equipment. Customer will not claim ownership of any Environmental Attributes. As long as customer at the same time states the installation of the qualifying equipment was made possible with funding from Rocky Mountain Power, customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Confidential information: Confidential information provided to Rocky Mountain Power or consultants shall not be disclosed to any third party. Confidential information shall mean data disclosed during the course of the inspection, and identified by the customer in writing as confidential. The obligation to protect confidential information will remain in force for two (2) years from the date the inspection is performed.

Additional details: Incentive qualifications and amounts are subject to change and termination at any time. Visit wattsmart.com or contact your LED Instant Incentive Distributor or Rocky Mountain Power for current program information.
